

Learning Preview Year 1

Autumn Term 1

SCIENCE WEEK

What is Science Week?

- Science Week is an exciting week in school where we are 'off timetable' and learn lots of new things. Next week we will be doing lots of learning about nature, animals, mini-beasts, planting and growing, as well as carrying out WOW experiments. We will also be looking at the work of famous scientists of our time.

Key Skills:

This Science Week is all about **exploring** and **investigating**. Through exciting hands on experiences the children will learn to **explore**, **predict**, **test** and **observe**, and **explain**. The children will be encouraged to think about why things happen.

Websites to visit

- BBC Bitesize Science KS1
- Science Museum Website
- Topmarks Science KS1
- Woodland Junior School

Vocabulary

- Predict - make a sensible guess
- Observe- looking carefully and closely
- Investigate- find the answer to a question
- Environment- our surroundings, where we live, a big space

Take note...

- Monday 19th please bring in a small stuffed animal.
- Wednesday 21st 8:50-9:10 Open Classrooms
- Wednesday 21st - 'Planting Day!'

Perhaps you will do your own experiments at home, don't forget to take some pictures and send them in. We would love to talk about them.

If you would like more information on our learning in Science Week please see our 'Curriculum Maps' on our website under the link 'Our School.'
