

LEARNING PREVIEW

FS2 - Spring 2

Dates - 6.3.17- 17.3.17

Pirates

How our learning will link to our children's lives, interests and experiences

- Children have been talking about their experiences and knowledge of money
- Children have been describing where they live and have been giving some basic directions
- Children have been talking about their experiences of different places that they have visited and have begun to look at these on a globe

How our learning will link to the wider world

- The children will be learning about different values of coins, including copper, bronze and silver coins as we look at pirate treasure; we will estimate and count groups of coins
- We will be learning about addition and subtraction in everyday life, and will begin to use the more formal language and "add", "take away" and "equals" to describe what we have done
- We will be learning to write a message or letter to go into a bottle, and discussing the different ways that people communicate such as letters, telephone calls, emails & texts
- We will be learning to subtract in everyday situations, such as paying for things

Websites to explore!

Letters and Sounds

The children will practice the digraphs **ee, ai, oa, or & ar**, and learn the new digraphs **ur, ow, oi** and the trigraphs **igh, ear, air & ure**. We will learn to read the tricky words **look, for, to, her, now & down** in a sentence.

Ideas

Draw your own Pirate Map of your own street, discussing which direction you walk or drive to school.

Look in your loose change and help your child to identify the different values of coins and combine these to make small totals.

REMEMBER

- Children have been reminded to read their school reading books to you every day
