Science Enrichment Days

At the beginning of the week, we all enjoyed exploring space and our world during our science days. On Monday, everyone had the opportunity to visit a mobile planetarium that in Verulam class for the day.

Matilda and Gracie (Verulam) said "We really enjoyed looking at the solar system in the planetarium".

Aaryan (Clarence) said "I enjoyed looking at the planets orbiting the sun."

During the day, KS1 children also made bottle rockets. In partners, the children designed a rocket, making sure it was stable and aerodynamic.

Harrison (Churchill) and Caspar (Morpurgo) said "We really enjoyed making our rockets! It was so exciting to see them blast off and spray all over our teacher!"

After exploring space, we then did lots of different investigations to discover more about our world. In these investigations we worked on our 'working scientifically' skills; predicting, testing and observing and recording. We had a really successful couple of science days with everyone having lots of fun!

Thank you to Miss Suttle and Miss Arnold for planning such brilliant opportunities!
