

Sports Premium Funding Action Plan 2017 – 2018

Allocation Made to the school £19,170

The Government has given every school additional funding to develop P.E. and Sports.

‘Schools are free to determine how best to use this funding to improve the quality and breadth of PE and Sport provision, including increasing participation in PE and Sport so that all pupils develop healthy lifestyles and reach the performance levels they are capable of.’
OFSTED - Inspecting Primary School PE and School Sport, Sept 2013

For several years at Bernards Heath we have provided at least 2 hours of P.E. at Key Stage 1 and in the Foundation Stage, the children have opportunities every day to be outside and to take part in sports activities.

We promote competition through opportunities in our P.E. and Sports curriculum and we offer a wide range of after school sports clubs during the school year which take place daily 3.15 and 4.15 pm.

Our curriculum plans introduce and develop skills in a wide range of physical activities. We will continue to ensure that the children are given opportunities throughout their years at our school to engage in a range of competitive sports and activities supporting the children to lead healthy and active lives.

The additional funding we receive this year has enabled us to:

- Work in partnership with Challenge Sport to employ a qualified sports coach to teach alongside class teachers enabling greater differentiation and inclusion in lessons (part funded by Sports Premium)
- Provide sports coaching which allows children to benefit from specialist teaching and for teachers to increase their skills
- Provide administration time for organisation of clubs
- Continue to provide after school activity club provision to promote healthy lifestyles and positive choices
- Encourage our Y2 children to improve their leadership skills through Play Leader roles at lunchtimes
- Provide a sports coach who leads physical activity during lunchtimes
- Provide playground equipment to develop and support play skills, and keep all children engaged on the playground
- Provide ‘Smart Moves’ sessions with a sports coach and other trained member of staff to teach gross motor skills to target children
- Provide membership to ‘5-a-day’ so children have regular access to physical activity in their classroom
